A scenic photograph of a sunset over a body of water. The sun is low on the horizon, creating a golden glow. A large ferry boat is visible on the right side of the water, moving towards the left. The sky is filled with soft, white clouds.

As They Grow The Drug Impacted Child

Presented by Luanne Marshall

This 6 hour focused topic training for caregivers will focus on how children with substance abuse in their life have an increased chance of experiencing many effects, such as poor social, cognitive and emotional development, physical, mental and health issues, depression, anxiety, concentration and learning difficulties, trouble controlling their responses, as well as other traumatic issues. The goal of this workshop is to identify and address the impacts drugs have on children and setting up a successful environment and coping skills. The takeaway from this training is feeling empowered to care for a drug impacted child as they grow through childhood, teenage years and beyond.

Registration is required. Some classes may have prerequisites.

To register, go to allianceforchildwelfare.org, select [Our Courses](#), and search for your class.

If you have questions, contact Shelly Myers at mysh300@uw.edu or 206-923-4955.

For registration support email: help@acwe.on.spiceworks.com
